

## Unleash Your Fantasy

(General notes about all three games)

**Turning Up the Heat:** SEX! cards come in five different intensities of heat. Each thermometer rating ties into how HOT the action that is portrayed on the card is; 1/5 is low, and 5/5 is absolutely orgasmic. When unleashing your fantasy, try following your fantasy cards from 1/5 to 5/5.

**Know Your Limits:** When acting out your fantasy, use the cards as love-making suggestions. If the position portrayed on a card is not comfortable or enjoyable, adjust your position or stance until it is, or replace the card.

**Every Body is Different:** A few positions call for flexibility or strength that some of us do not have. If you have concerns that certain positions might be difficult, you may want to remove them from the deck before you play a game.

**Play Safely:** Most importantly, don't forget the condoms or other forms of contraceptives.

**WILD! cards:** If you wish to include WILD! cards, they can replace any ranked card with a thermometer rating.

## Lover's Libido

**Concept:** You and your partner quiz each other about your libidos, likes, dislikes, and other personal details. Correct answers earn you cards that you can apply to your optimal fantasy.

**Setup:** Sit opposite your lover at a table. Shuffle the cards and place them face-down between the two of you.

**Play:** You and your partner take turns asking each other personal questions about yourself with two possible answers. Examples are, "What was my favorite childhood pet's name? a) Fluffy b) Killer" and "What's my favorite body topping? a) Caramel b) Whipped Cream."

After you pose a question to your partner, he attempts to answer it. If he is correct, he gets to draw a card. After drawing the card, he can elect to either keep it, or discard it. If he keeps the card he should then place it in front of him. Kept cards cannot be replaced, so if he later earns a card he prefers of the same thermometer rating, he cannot replace his previous choice.

When a player has a card of each rating laid out, he (or she) wins the game. The couple then acts out their fantasy in the following order: 1/5, 2/5, 3/5, 4/5, 5/5.

**WILD! cards:** If you wish to include WILD! cards, they can replace any ranked card with a thermometer rating.

## Ultimate Fantasy

**Concept:** Select cards from the deck until either you or your lover have selected tonight's adventure.

**Setup:** Sit opposite your lover at a table or on the bed. Shuffle the cards and deal five cards to each player. Place the remainder of the deck face down in the center of the playing area.

**Play:** Your lover begins by either laying down a complete fantasy (defined below) or by discarding a card. Discards should be placed face-up. After discarding, your lover draws a card from the deck. You then take your turn and play continues until one of you lays down a complete fantasy.

A complete fantasy should contain one card of each heat intensity rating. You do not have to lay down a complete fantasy as soon as you collect one. (i.e., You can keep drawing until you obtain a fantasy you wish to win.)

After a player lays down a fantasy, both players act it out. The couple then acts out their fantasy in the following order: 1/5, 2/5, 3/5, 4/5, 5/5.

**WILD! cards:** If you wish to include WILD! cards, they can replace any ranked card with a thermometer rating.

## Fortune Teller!

**Concept:** Predict your lover's future by letting the cards be your guide to a wild evening together.

**Setup:** Sit opposite your lover at a table or on a bed. Shuffle the cards and place them face-down in front of you.

**Play:** Turn over cards one by one, and place them face-up on the table. Place cards in adjacent stacks, left to right by thermometer rating (1/5, 2/5, 3/5, 4/5, 5/5). Do not let different rated cards overlap each other.

When you repeat a rating, place the new card on top of the previously selected card. Your lover's fortune is complete once you have placed at least one card of each thermometer rating on the table.

Use cards on the top of each of the stacks as your guide to your romantic adventure. The couple acts out their fantasy in the following order: 1/5, 2/5, 3/5, 4/5, 5/5.

**WILD! cards:** If you wish to include WILD! cards, they can replace any ranked card with a thermometer rating.
