**Setup:**

Separate the playing cards into the five decks: Foreplay Cards, Plot Twist Cards, Passion Cards, Sex Cards, and the remaining playing cards (with light pink backs). Shuffle the Foreplay Card, Plot Twist Card, and Passion Card decks individually, then place them facedown in the playing area. Depending on the game, you will use various cards of the remaining two decks. Instructions for what to do with these cards are on the Foreplay, Plot, and Passion Cards.

**Play:**

Play consists of one Foreplay Card, one Passion Card, and an optional Plot Twist Card.

Turn over the top card from the Foreplay Card deck and read it aloud. Next, turn over a Passion Card and read it aloud. The Foreplay Card explains what you and your lover will be doing during the current round of play, and the Passion Card explains what will be done after the Foreplay Round. You and your lover may want to spend time familiarizing yourselves with the Passion Card, because it may affect the strategies you use while carrying out Foreplay. Rules from the Passion Card become valid as soon as the Foreplay Round ends.

If you wish to add an extra concept to your game, turn over a Plot Twist Card. The Plot Twist Card is used to liven up a round by throwing in an extra rule. The Plot Twist often refers to things you do during the Foreplay round so be sure to turn it over before the game begins if you wish to use it.
